

## Welcome Letter from the President of the Scientific Committee

Dear colleagues and friends,

It is our privilege and honour to welcome you to participate in the 3<sup>rd</sup> International AAA Congress in Sarajevo – May 27 – 29<sup>th</sup> 2022.

The AAA Congress brings together specialists, physicians, and healthcare professionals to share valuable scientific knowledge on asthma, allergies, atopic dermatitis and related conditions. AAA Congress has been a unique opportunity to exchange on current issues on atopic diseases, offering an outstanding scientific program, including presentations by world-renowned speakers. The 3<sup>rd</sup> AAA Congress will continue its tradition of excellence and you are welcome to take part in this unique international event.

Progress happens when great minds work together to solve the toughest challenges. One of the AAA Congress's greatest achievements is its ability to create partnerships and communities to share the updated knowledge and best world practices. Extensive efforts in innovative prevention, monitoring and immune modulation interventions together with integrative approaches are needed to circumvent the unmet needs in allergic diseases and asthma. Such innovative solutions ultimately lead to better patient outcomes, fewer hospital visits and reduced healthcare costs.

The Scientific Programme will present the best in science and educational sessions from distinguished researchers from across the globe. Covering key topics in allergic diseases and asthma, the 3<sup>rd</sup> AAA Congress provides a multidisciplinary forum for allergists, pulmonologists, dermatologists, pediatricians, clinical immunologists and primary care physicians.

I look forward to welcoming participants and friends to the 3<sup>rd</sup> international Congress. These meetings would not be possible without your continuous endeavor for high quality learning opportunities and scientific interactions. Join AAA to celebrate innovation as the game-changing approach to the complex health, social, economic and environmental challenges that influence allergic diseases and asthma with focus on the Balkan region.

Yours sincerely,

Adnan Custovic DM MD PhD FRCP FMedSci  
Professor of Paediatric Allergy
